Independent Auditor's Report

To the Board of Education
Hartland Consolidated Schools

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hartland Consolidated Schools (the "School District") as of and for the year ended June 30, 2011, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Hartland Consolidated Schools' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Hartland Consolidated Schools as of June 30, 2011 and the respective changes in financial position and cash flows, where applicable, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

During the year, the School District implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*, as discussed in Note 1. As a result of this required implementation, the Athletic Fund, previously classified as a special revenue fund, is now reported as a part of the General Fund. In addition, fund balance classifications in the governmental fund financial statements have been changed to reflect the five new classifications under GASB No. 54.

The management's discussion and analysis and budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Board of Education
Hartland Consolidated Schools

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hartland Consolidated Schools' basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is not a required part of the basic financial statements. The other supplemental information is presented for the purpose of additional analysis. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued a report under separate cover dated October 31, 2011 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Plante & Morse, PLLC

Hartland Consolidated Schools

Management's Discussion and Analysis

This section of Hartland Consolidated Schools' (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2011. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Hartland Consolidated Schools financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements illustrate how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds - the Combined General Fund and the 2010 Capital Projects Fund, with all other funds presented in one column as nonmajor funds. The remaining statements, the fiduciary statement of net assets and the fiduciary statement of changes in net assets, present financial information about activities for which the School District acts solely as an agent for the benefit of student groups. The order of the annual report, including the management's discussion and analysis, is as follows:

Management's Discussion and Analysis (MD&A)
(Required Supplemental Information)

Basic Financial Statements

Government-wide Financial Statements Fund Financial Statements

Notes to the Basic Financial Statements

(Required Supplemental Information)

Budgetary Information for Major Funds

Other Supplemental Information

Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets (deficit) and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

These two statements report the School District's net assets (deficit) - the difference between assets and liabilities, as reported in the statement of net assets (deficit) - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net assets (deficit) - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets (deficit) and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Services Fund is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets (deficit) and the statement of activities) and governmental funds in a reconciliation.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds and private purpose trust funds. All of the School District's fiduciary activities are reported in a separate fiduciary statement of net assets and fiduciary statement of changes in net assets. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

The School District as a Whole

The statement of net assets (deficit) provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets (deficit) as of June 30, 2011 and 2010:

	Governmental Activities	
	June 30	
	2011	2010
	(in millions)	
Assets		
Current and other assets	\$ 42.6	\$ 44.0
Capital assets	129.6	129.4
Total assets	172.2	173.4
Liabilities		
Current liabilities	20.5	20.7
Long-term liabilities	159.0	159.7
Total liabilities	179.5	180.4
Net Assets (Deficit)		
Invested in capital assets - Net of related debt	16.8	15.4
Restricted	1.9	0.8
Unrestricted	(26.0)	(23.2)
Total net deficit	<u>\$ (7.3)</u>	<u>\$ (7.0)</u>

The above analysis focuses on the net assets (deficit) (see Table 1). The change in net deficit (see Table 2) of the School District's governmental activities is discussed below. The School District's net deficit was approximately \$7.3 million at June 30, 2011. Capital assets, net of related debt totaling \$16.8 million, compares the original cost, less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net assets for day-to-day operations. The remaining net deficit of approximately \$26.0 million is unrestricted.

The \$26.0 million unrestricted net deficit of governmental activities represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets (deficit) from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (see Table 2), which shows the changes in net deficit for the fiscal years ended June 30, 2011 and 2010.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

TABLE 2

	Governmental Activities	
	Year Ended June 30	
	2011	2010
	(in millions)	
Revenue		
Program revenue:		
Charges for services	\$ 4.2	\$ 4.3
Operating grants and contributions	5.6	4.1
General revenue:		
Property taxes	13.0	13.5
State foundation allowance	34.9	34.0
Federal sources - Unrestricted	1.8	1.6
Other	0.6	0.3
Total revenue	<u>60.1</u>	<u>57.8</u>
Functions/Program Expenses		
Instruction	27.2	30.4
Support services	15.3	15.1
Athletics	0.8	0.8
Food services	1.3	1.3
Community services	2.5	2.7
Other	-	0.2
Interest on long-term debt	8.3	7.1
Depreciation (unallocated)	5.0	5.0
Total functions/program expenses	<u>60.4</u>	<u>62.6</u>
Change in Net Deficit	(0.3)	(4.8)
Net Deficit - Beginning of year	<u>(7.0)</u>	<u>(10.0)</u>
Net Deficit - End of year	<u>\$ (7.3)</u>	<u>\$ (7.0)</u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$60.4 million. Certain activities were partially funded from those who benefited from the programs, \$4.2 million, or by other governments and organizations that subsidized certain programs with grants and contributions, \$5.6 million. We paid for the remaining "public benefit" portion of our governmental activities with \$13.0 million in taxes, \$34.9 million in state foundation allowance, \$1.8 million in federal unrestricted money, and \$0.6 million with our other revenue, i.e., interest and general entitlements.

The School District experienced an increase in its net deficit of approximately \$300,000 during the year. This increase in deficit was primarily due to additional borrowings on the School Bond Loan Fund and depreciation expense.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$32.6 million, which is a decrease of \$2.2 million from last year. The primary reasons for the decrease are as follows:

In the Combined General Fund (now includes the former "Athletic Fund"), our principal operating fund, the fund balance increased from June 30, 2010 to June 30, 2011 by \$2,804,142 to approximately \$5.7 million. The School District had contemplated a decrease in the fund balance of \$981,598 at the time the budgets for both the Athletics and General Funds were originally adopted in June 2010.

As noted, at the time of budget adoption in June 2010, the School District had budgeted a combined decrease of \$981,598 in the fund balance by year end. The School District did implement budget amendments in June 2011. Between the original adoption and the amendment process, expected combined budgeted revenue increased by \$2,221,040 and expected combined budgeted expenditures decreased by \$490,301. These items changed the expected decrease in combined fund balance at year end by \$2,711,341 to a net increase of \$1,729,743 ($-\$981,598 + \$2,711,341$). Thus the final amended budget reflected an anticipated fund balance of \$4,596,087.

At fiscal year end, the Combined General Fund fund balance from June 30, 2010 to June 30, 2011 increased by \$2,804,142. Along with the budgeted increase in fund balance of \$1,729,743, actual revenue came in over budget by \$34,084 while actual expenditures came in under budget by \$1,040,315. This had the effect of increasing fund balance over that budgeted by \$1,074,399 for a net increase of \$2,804,142. A further explanation of the changes in the General Fund can be found later in the management's discussion and analysis section under "General Fund budgetary highlights."

General Fund fund balance is available to fund costs related to allowable school operating purposes.

Our special revenue fund, the Food Service Fund, decreased in fund balance by \$12,365. However, fund balance remains strong at \$284,094, which represents approximately 20 percent of expenditures and "transfers out."

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

Combined, the debt service funds showed a fund balance increase of \$1,059,583. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. Durant debt obligations are funded by annual state appropriation, and no fund balance exists at year end. Debt service funds fund balances are restricted since they can only be used to pay debt service obligations.

The capital projects funds fund balances decreased by \$6,046,762. Within the capital projects funds, the major 2010 Capital Projects Fund decreased by \$3,929,991, the 2000 Capital Projects Fund decreased by \$976,218, and the 2006 Capital Projects Fund decreased by \$1,140,553, reflective of spending as the project continued. Spending in the 2000 Capital Projects Fund was completed during the year ended June 30, 2011.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to reflect expected significant changes from the original adopted budget. The original budget was adopted on June 30, 2010. A schedule showing the School District's original and final adopted budget amounts (without inclusion of the athletics accounts) compared with amounts actually paid and received is provided in the required supplemental information to the financial statements. The Athletics Subfund is shown separately in the Combined General Fund report in the other supplemental information section.

The School District did amend the General Fund in June 2011. Ultimately, the "actual versus budget" resulted in a +0.12 percent variance in revenue (\$60,156 over budget) and a -2.2 percent variance in expenditures (\$1,021,444 under budget). The combination of these two items improved the fund balance position at June 30, 2011 by \$1,081,600 from an amended budget fund balance of \$4,549,351 to an actual year-end fund balance of \$5,630,951.

In that for the third time we had adopted a "continuation budget" (i.e., the original adopted 2010-2011 budget was the same as the final amended budget for 2009-2010), there were numerous changes in both revenue and expenditures too numerous to review. The primary reasons for the actual increase in revenue for the year over the original budget (+ \$2,243,380) were an increase of 53 pupils (we are paid based upon our enrollment and we had originally assumed a loss of 55 pupils) and over \$2 million of federal funds that had not been expected/planned at the time the budget was adopted in June 2010.

The reduction in actual expenditures for the year over the original continuation budget was \$1,522,957. From among over 1,600 expenditure accounts, there were many adjustments up and down that accounted for portions of the reduction. The primary reasons were:

- 1) Significant planned expenditure reductions of nearly \$2,700,000 with over 60 percent coming from employee concessions and the remainder coming from administrative-directed changes (ex., essentially privatizing transportation). The extent of these total reductions was not included in the original budget because of the "continuation budget" concept.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

- 2) Conservative budgeting, because in a number of the areas related to the expenditure reductions noted in item 1 above, we wanted to be "safe" in our estimates. In fact, a number of the reductions generated more savings than planned.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2011, the School District had approximately \$184 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment. This amount represents a net increase (including additions and disposals) of approximately \$4.6 million, or 3 percent, from last year.

	2011	2010
Land	\$ 2,419,502	\$ 2,419,502
Construction in progress	-	389,453
Buildings and building improvements	156,666,152	152,475,798
Buses and other vehicles	6,005,427	5,706,911
Furniture and equipment	18,715,295	18,182,159
Total capital assets	<u>\$ 183,806,376</u>	<u>\$ 179,173,823</u>

This year's additions of \$5.2 million are primarily a result of 2010 Bond spending. The additions were offset by disposals of \$600,000 due to the sale of several buses.

Debt

At the end of this year, the School District had \$136.6 million in bonds outstanding versus \$143.5 million in the previous year - a change of 4.8 percent. Total bonds consisted of the following:

	2011	2010
General obligation bonds	<u>\$ 136,566,670</u>	<u>\$ 143,521,175</u>

The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding unqualified general obligation debt of \$70,000 is significantly below the statutorily imposed limit.

Other obligations include accrued vacation pay, early retirement incentive obligation, and an arbitrage obligation. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Hartland Consolidated Schools

Management's Discussion and Analysis (Continued)

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration considered many factors when setting the School District's 2011-2012 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count of the 2011-2012 fiscal year is 10 percent and 90 percent of the February 2011 and the September 2011 student counts, respectively. With few exceptions, under state law, the School District cannot assess additional property tax revenue for general operations. As a result, School District funding is heavily dependent on the State's ability to fund the foundation allowance. Based on enrollment data at the start of the school year, the fall student count will be higher than the School District contemplated by 43 students. It appears the School District enrollment will be down only two from the prior year versus a planned reduction of 45.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to school districts. In two of the past nine years, the State has had to make a mid-year adjustment that reduced the foundation allowance. The potential of that type of delay in final notification makes it very difficult to plan appropriately. Fortunately, it appears there is additional money over what was planned in the State School Aid Fund and it appears there should not be any concern about a mid-year proration during 2011-2012.

From a revenue perspective, the 2011-2012 year will find the School District with fewer dollars available. Although enrollment has remained very close to the prior year number, the per-pupil funding from the State has been reduced significantly. Additionally, federal "stimulus" dollars are now no longer available.

Expenditures will increase during the 2011-2012 school year even after consideration and implementation of concessions from most employees. The primary concession is a 2.65 percent salary reduction. Also, the district-wide concessions implemented in 2010-2011 remain in place. Unfortunately, significant increases in retirement costs (this is a state-run program) and health insurance costs as well as typical inflationary costs will cause total expenditures to exceed anticipated total revenue by approximately \$1.9 million.

On a positive note, the School District did build its General Fund balance to its highest level in many years to almost \$5.7 million which will allow for drawdowns for at least a few more years. More importantly, the School District will be able to continue to maintain educational programs and remains as a "school of choice" in our region. Finally, our employee labor contracts all call for concessions, significant if necessary, to enable the School District to maintain a positive fund balance. These contracts are in place through the 2012-2013 school year.

Governmental Funds Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets (Deficit) June 30, 2011

Fund Balance Reported in Governmental Funds \$ 32,636,428

Amounts reported for governmental activities in the statement of net assets (deficit) are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds:

Cost of capital assets	\$ 183,806,376	
Accumulated depreciation	<u>(54,212,714)</u>	129,593,662

Long-term liabilities are not due and payable in the current period and are not reported in the governmental funds:

Bonds and School Bond Loan Fund payable	(166,900,294)	
Compensated absences	(167,724)	
Arbitrage liability	(161,594)	
Notes payable	(148,208)	
Early retirement incentive	<u>(1,156,000)</u>	(168,533,820)

Accrued interest payable is not included as a liability in governmental funds (972,738)

Net Deficit of Governmental Activities **\$ (7,276,468)**

Integral Part of this Statement.

Hartland Consolidated Schools

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2011

Net Change in Fund Balances - Total Governmental Funds \$ (2,195,402)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:

Depreciation expense	\$ (4,966,349)	
Capitalized capital outlay	5,252,190	285,841

Governmental funds report proceeds from the sale of assets as revenue; in the statement of activities, these are recorded net of carrying value of the disposed assets (65,686)

Revenue is reported in the statement of activities when earned; it is not reported in the funds until collected or collectible within 60 days of year end (252,798)

Bond proceeds provide financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of activities (41,714,524)

Long-term expenses are recorded in the statement of activities when incurred; they are not reported in governmental funds until paid 578,000

Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt) 44,091,469

Interest expense is recorded in the statement of activities when incurred; it is not reported in governmental funds until paid (1,063,542)

Compensated absences are recorded when earned in the statement of activities. In the current year, more was paid out than was earned 3,998

Arbitrage expense is recorded in the statement of activities when incurred; it is not reported in governmental funds until paid 94,441

Change in Net Assets of Governmental Activities **\$ (238,203)**

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note I - Summary of Significant Accounting Policies

The accounting policies of Hartland Consolidated Schools (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets (deficit) and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note I - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note I - Summary of Significant Accounting Policies (Continued)

2010 Capital Projects Fund - The 2010 Capital Projects Fund is used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for remodeling buildings, acquiring and installing technology equipment, purchasing school buses, and developing and improving athletic fields and facilities, playgrounds, and sites. The funds operate until the purpose for which they were created is accomplished.

Additionally, the School District reports the following fund types:

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's only special revenue fund is the Food Services Fund. Any operating deficit generated by food service activities is the responsibility of the General Fund.

Debt Service Funds - The various debt service funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on the related bond issue.

Capital Projects Funds - The 2000 and 2006 Capital Projects Funds are used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring new school sites, buildings, equipment, and for remodeling. The funds operate until the purpose for which they were created is accomplished.

Student Activities Agency Funds - The School District presently maintains an Agency Fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held in trust for the students.

Trust Funds - The various trust funds are used to account for resources legally held in trust, including contributions received by the School District to be awarded in the form of scholarships.

Assets, Liabilities, and Net Assets or Equity

Cash and Investments - Cash and investments include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Investment income is recorded in the fund for which the investment account was established.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are billed on July 1 for approximately 35 percent of the property taxes and on December 1 for the remainder of the property taxes. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

Inventories and Prepaid Costs - Inventories are valued at cost on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. United States Department of Agriculture commodities inventory received by the Food Services Fund is recorded as inventory and deferred revenue until used. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

Restricted Assets - The unspent bond proceeds and related interest of the capital projects funds require amounts to be set aside for construction. In addition, property tax collections of the debt service funds are required to be spent on bonded indebtedness. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	20 to 50 years
Buses and other vehicles	5 to 10 years
Furniture and other equipment	5 to 10 years

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

Compensated Absences (Vacation and Sick Leave) and Early Retirement Benefits - The liability for compensated absences reported in the government-wide statements consists of earned but unused accumulated vacation and sick leave benefits. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included.

A liability for early retirement benefits is reported in the government-wide statements at the cumulative expected future benefit payments. The early retirement benefits consist of early retirement incentive cash payments provided to 34 employees over a three-year period. The cost of the obligation is reported in long-term debt.

Long-term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets (deficit).

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Balance - In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications - nonspendable, restricted, committed, assigned, and unassigned. The School District implemented Statement No. 54 during the year.

In the fund financial statements, governmental funds report the following components of fund balance:

- **Nonspendable:** Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- **Restricted:** Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

- Committed: Amounts that have been formally set aside by the Board of Education for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- Assigned: Intent to spend resources on specific purposes expressed by the Board of Education or superintendent, who is authorized by policy approved by the Board of Education to make assignments.

Comparative Data/Reclassifications - Comparative data is not included in the School District's financial statements.

Accounting Change - Effective July 1, 2010, the School District implemented the provisions of Governmental Accounting Standards Board Statement No. 54. In addition to the changes to fund balance discussed above, the School District changed its presentation of the athletics activity in the governmental funds. Previously, the athletics function was reported as a special revenue fund. With the adoption of GASB No. 54, the activity no longer met the criteria to be classified as a special revenue fund and the activity is now reported in the General Fund. The Athletics Fund fund balance as of June 30, 2010 was \$39,523. This balance has been transferred to the General Fund as of July 1, 2010 and the General Fund beginning balance has been restated.

GASB Statement No. 63 - *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* was issued by the GASB in June 2011 and will be effective for the School District's 2012-2013 fiscal year. The statement incorporates deferred outflows of resources and deferred inflows of resources, as defined by GASB Concepts Statement No. 4, into the definitions of the required components of the residual measure of net position, formerly net assets. This statement also provides a new statement of net position format to report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Once implemented, this statement will impact the format and reporting of the balance sheet at the government-wide level and also at the fund level.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund and all special revenue funds. In addition, a budget is adopted for the capital projects and debt service funds. All annual appropriations lapse at fiscal year end.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 2 - Stewardship, Compliance, and Accountability (Continued)

The budget document presents information by fund, function, and object. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in June 2011 in a legally permissible manner.

Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Excess of Expenditures Over Appropriations in Budgeted Funds - The School District did not have significant expenditure budget variances.

Capital Projects Fund Compliance - The capital projects funds include capital project activities funded with bonds issued after May 1, 1994, which is when §1351a went into effect. For these capital projects, the School District has complied with the applicable provisions of §1351a of the State of Michigan's School Code.

Note 3 - Deposits and Investments

State statutes authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated two banks for the deposit of its funds.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At year end, the School District's deposit balance of \$6,252,651 had \$5,752,651 of bank deposits (money market, checking, and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 3 - Deposits and Investments (Continued)

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's policy for custodial credit risk states that custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law, and by pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the School District will do business using the criteria established in the investment policy. The uninsured and unregistered investments listed in the chart below are held by a counterparty.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. The School District's policy minimizes interest rate risk by requiring structuring of the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools; and limiting the average maturity in accordance with the School District's cash requirements.

Investments - Investments under the interlocal agreement (MILAF) are regulated by the Urban Cooperation Act. The fair value of the position in the interlocal agreement pools is the same as the value of the pool shares. The interlocal agreement (MILAF) is rated at AAAM according to Standard & Poor's.

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 3 - Deposits and Investments (Continued)

At year end, the maturities of investments and the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Fair Value	Maturities	Rating	Rating Organization
Michigan Liquid Asset Fund	\$ 5,059,005	N/A	AAAm	S&P
Fannie Mae	9,442,787	10/15/2011- 4/15/2015	Aaa	Moody's
Freddie Mac	4,015,485	3/23/2012- 7/15/2014	Aaa	Moody's
Federal Home Loan Bank Freddie Mac - Medium Term Notes	1,734,392 792,584	11/15/2012 7/28/2014	Aaa Aaa	Moody's Moody's
U.S. Treasury note	5,470,860	7/31/2011- 12/15/2011	Aaa	Moody's
Victory Federal Money Market	<u>2,524,710</u>	N/A	AAAm	S&P
Total investments	<u>\$ 29,039,823</u>			

Concentration of Credit Risk - The School District places no limit on the amount the School District may invest in any one issuer. Any investment over 5 percent of total investments is a concentration. Six of the seven investments listed above are considered concentrations.

Note 4 - Receivables and Deferred Revenue

Receivables as of year end for the School District's individual major funds and the nonmajor funds in the aggregate are as follows:

	General Fund	Nonmajor Funds	Total
Receivables:			
Accounts receivable	\$ 721,904	\$ 24,310	\$ 746,214
Intergovernmental	<u>6,849,300</u>	<u>-</u>	<u>6,849,300</u>
Total receivables	<u>\$ 7,571,204</u>	<u>\$ 24,310</u>	<u>\$ 7,595,514</u>

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 4 - Receivables and Deferred Revenue (Continued)

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Unavailable	Unearned	Total
General Fund	\$ -	\$ 11,301	\$ 11,301
Nonmajor funds	-	30,791	30,791
Total deferred revenue	<u>\$ -</u>	<u>\$ 42,092</u>	<u>\$ 42,092</u>

Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

	Balance July 1, 2010	Adjustments/ Reclassifications	Additions	Disposals	Balance June 30, 2011
Governmental Activities					
Capital assets not being depreciated:					
Land	\$ 2,419,502	\$ -	\$ -	\$ -	\$ 2,419,502
Construction in progress	389,453	(389,453)	-	-	-
Subtotal	2,808,955	(389,453)	-	-	2,419,502
Capital assets being depreciated:					
Buildings and building improvements	152,475,798	389,453	3,800,901	-	156,666,152
Furniture and equipment	18,182,159	-	533,136	-	18,715,295
Buses and other vehicles	5,706,911	-	918,153	619,637	6,005,427
Subtotal	176,364,868	389,453	5,252,190	619,637	181,386,874
Accumulated depreciation:					
Buildings and building improvements	35,695,310	-	3,624,283	-	39,319,593
Furniture and equipment	11,046,567	-	713,096	-	11,759,663
Buses and other vehicles	3,058,439	-	628,970	553,951	3,133,458
Subtotal	49,800,316	-	4,966,349	553,951	54,212,714
Net capital assets being depreciated	<u>126,564,552</u>	<u>389,453</u>	<u>285,841</u>	<u>65,686</u>	<u>127,174,160</u>
Net capital assets	<u>\$ 129,373,507</u>	<u>\$ -</u>	<u>\$ 285,841</u>	<u>\$ 65,686</u>	<u>\$ 129,593,662</u>

Depreciation expense was not charged to activities as the School District considers its assets to impact multiple activities and allocation is not practical.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From		Total
	General Fund	Nonmajor Governmental Funds	
Nonmajor governmental funds	\$ 1,561	\$ 358	\$ 1,919

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Interfund transfers reported in the fund financial statements are comprised of the following:

Fund Advanced To	Fund Advanced From			Total
	General Fund	2010 Capital Projects Fund	Nonmajor Governmental Funds	
General Fund	\$ -	\$ -	\$ 83,235	\$ 83,235
Nonmajor governmental funds	71,158	156,140	964,546	1,191,844
Total	\$ 71,158	\$ 156,140	\$ 1,047,781	\$ 1,275,079

Transfers between the General Fund and the other nonmajor funds represent transfers made to the debt service funds to cover principal and interest payments.

Transfers made from the Cafeteria Fund to the General Fund represent reimbursements for various overhead charges.

Transfers made from other nonmajor funds to other nonmajor funds are between the capital projects funds for reimbursement of payments made on behalf of the other fund.

Note 7 - Long-term Debt

The School District issues bonds and notes to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Notes and installment purchase agreements are also general obligations of the School District. Other long-term obligations include compensated absences, arbitrage liabilities, and early retirement incentives.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 7 - Long-term Debt (Continued)

Long-term obligation activity can be summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities					
Bonds	\$ 143,521,175	\$ 36,960,000	\$ 43,914,505	\$ 136,566,670	\$ 8,661,264
Notes	325,172	-	176,964	148,208	83,965
School Bond Loan Fund	24,463,333	5,870,291	-	30,333,624	-
Other obligations	2,161,757	-	676,439	1,485,318	739,594
Total governmental activities	<u>\$ 170,471,437</u>	<u>\$ 42,830,291</u>	<u>\$ 44,767,908</u>	<u>\$ 168,533,820</u>	<u>\$ 9,484,823</u>

The School District issued Build America Bonds in a previous year. Build America Bonds, a program under the American Recovery and Reinvestment Act of 2009, provides funding for state and local governments at lower borrowing costs. The program is designed to provide a federal subsidy for a larger portion of the borrowing costs of state and local governments than traditional tax-exempt bonds. The federal interest subsidy is indicated as a reduction of interest payments in the table below. The net interest column indicates the amount of cash that the School District will pay in interest.

Annual debt service requirements to maturity for the above bond and note obligations are as follows:

Years Ending June 30	Governmental Activities				
	Principal	Interest	Interest Subsidy	Net Interest	Total - Net
2012	\$ 8,745,228	\$ 6,413,101	\$ (1,013,421)	\$ 5,399,680	\$ 14,144,908
2013	8,729,750	5,941,049	(1,013,421)	4,927,628	13,657,378
2014	8,904,900	5,638,975	(1,013,421)	4,625,554	13,530,454
2015	6,135,000	5,327,166	(1,008,224)	4,318,942	10,453,942
2016	6,260,000	5,102,838	(1,002,396)	4,100,442	10,360,442
2017-2021	32,110,000	21,821,979	(4,897,751)	16,924,228	49,034,228
2022-2026	29,440,000	14,952,325	(4,642,214)	10,310,111	39,750,111
2027-2031	32,690,000	4,551,695	(1,424,373)	3,127,322	35,817,322
2032-2035	3,700,000	605,875	(169,645)	436,230	4,136,230
Total	<u>\$ 136,714,878</u>	<u>\$ 70,355,003</u>	<u>\$ (16,184,866)</u>	<u>\$ 54,170,137</u>	<u>\$ 190,885,015</u>

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 7 - Long-term Debt (Continued)

Governmental Activities

General obligation bonds consist of the following:

\$31,855,000 - 2001 refunding of 1978 and a portion of 2000 building and site serial and term bond issues due in annual installments of \$3,605,000 to \$3,845,000 beginning May 1, 2022 through May 1, 2029; interest from 5.00 percent - 5.50 percent	\$ 29,850,000
\$580,000 - 2002 energy improvement bonds due in annual installments of \$70,000 through May 1, 2012; interest at 4.40 percent	70,000
\$319,357 - Durant Non-Plaintiff Bond due in annual installments of \$21,406 to \$111,264 through May 15, 2013; interest at 4.76 percent	132,670
\$23,321,060 - 2003 refunding of the School Bond Loan Fund due in annual installments of \$2,685,000 to \$2,862,000 through May 1, 2014; interest at 3.32 percent	8,319,000
\$14,825,000 - 2004 partial refunding of the School District's 1996 building and site serial bonds due in annual installments of \$915,000 to \$1,000,000 through May 1, 2022; interest from 3.5 percent - 5.00 percent	10,565,000
\$26,390,000 - 2007 building and site serial bond due in annual installments of \$1,025,000 to \$1,350,000 through May 1, 2030; interest from 4.00 percent - 4.25 percent	23,050,000
\$1,300,000 - 2010 building and site serial bond, Series A, due in annual installments of \$425,000 to \$450,000 through May 1, 2013; interest from 1.60 percent - 2.55 percent	875,000
\$12,180,000 - 2010 building and site serial bond, Series B, due on May 1, 2027; interest at 6.65 percent	12,180,000
\$14,565,000 - 2010 building and site serial bond, Series C, due in annual installments of \$450,000 to \$925,000 beginning May 1, 2014 through May 1, 2035; interest from 3.30 percent - 6.55 percent	14,565,000
\$36,960,000 - 2011 partial refunding of the 2001 refunding bond due in annual installments of \$3,385,000 to \$3,875,000 beginning May 1, 2022 through May 1, 2029; interest from 5.00 percent - 5.50 percent	<u>36,960,000</u>
Total	<u>\$ 136,566,670</u>

Durant Non-Plaintiff Bond - Included in governmental activities general obligation bonds is the Durant Non-Plaintiff Bond. Annual total payments (principal and interest) associated with this bond are funded by the State of Michigan via specifically appropriated state aid and will not require any School District debt levy or utilization of any other School District financial resources.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 7 - Long-term Debt (Continued)

Notes consist of the following:

Date	Original Amount	Interest Rate	Due Date	Remaining to Maturity	
				Principal	Interest
06/01/05	\$ 649,224	2.933%	11/1/2011	\$ 54,101	\$ 952
06/25/07	200,100	4.900	6/25/2014	94,107	8,232
Total	<u>\$ 849,324</u>			<u>\$ 148,208</u>	<u>\$ 9,184</u>

Other governmental activities long-term obligations include the following:

Arbitrage	\$ 161,594
Compensated absences	167,724
Early retirement incentive obligation	<u>1,156,000</u>
Total	<u>\$ 1,485,318</u>

The School District offered an early retirement incentive plan to employees who met certain eligibility requirements. Retirements were effective June 30, 2010. The School District is obligated to pay a total of \$1,734,000 in three installments. A payment of \$578,000 was made during the year ended June 30, 2011. Payments of \$578,000 will be paid in each of the fiscal years ending June 30, 2012 and 2013.

School Bond Loan and School Loan Revolving Fund - The school bond loan and School Loan Revolving Fund payable represent notes payable to the State of Michigan for loans made to the School District, as authorized by the 1963 State of Michigan Constitution, for the purpose of paying principal and interest on general obligation bonds of the School District issued for capital expenditures. Interest rates are to be annually determined by the State Administrative Board. Interest rates ranged from 3.000 percent to 5.375 percent from July 1, 2010 to June 30, 2011. Repayment is required when the millage rate necessary to cover the annual bonded debt service falls below 7 mills. The School District is required to levy 7 mills and repay to the State any excess of the amount levied over the bonded debt service requirements. Due to the variability of the factors that affect the timing of repayment, including the future amount of state equalized value of property in the School District, no provision for repayment has been included in the above amortization schedule. At June 30, 2011, \$7,967,985 was outstanding on the school bond loan and \$22,365,639 was outstanding on the School Loan Revolving Fund.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 7 - Long-term Debt (Continued)

Advance Refundings - During the year, the School District issued \$36,960,000 in general obligation bonds with an average interest rate of 3.5 percent. The proceeds of these bonds were used to advance refund \$35,895,000 of outstanding 2001 refunding serial bonds with an average interest rate of 5.178 percent. The net proceeds of \$36,829,950 (after payment of \$130,050 in underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities and were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the School District's long-term obligations. The advance refunding reduced total debt service payments by approximately \$3,123,000, which represents an economic gain of approximately \$2,753,000.

In addition to the current year defeasance, in prior years the School District defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the basic financial statements. At June 30, 2011, \$110,420,000 of bonds are considered defeased.

Note 8 - Restricted Assets

The balances for the restricted asset accounts are as follows:

	Governmental Activities
Unspent bond proceeds and related interest	\$ 26,111,974

Note 9 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for property loss, torts, errors and omissions, and medical benefit claims and participates in the SET-SEG risk pool for claims relating to employee injuries. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 10 - Defined Benefit Pension Plan and Postemployment Benefits

Plan Description - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The system provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The system also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909.

Pension Benefits - Employer contributions to the pension system result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits. The employer contribution rate for basic plan members was 10.13 percent of covered payroll for the period from July 1, 2010 through September 30, 2010 and 12.16 percent for the period from October 1, 2010 through June 30, 2011. The employer contribution rate for pension plus plan members was 10.66 percent for the period from October 1, 2010 through June 30, 2011. Basic plan members make no contributions, but member investment plan members contribute at rates ranging from 3 percent to 4.3 percent of gross wages, or up to 6.4 percent of gross wages for members entering the MIP Plus plan on or after July 1, 2008. The School District's required and actual contributions to the plan for the years ended June 30, 2011, 2010, and 2009 were \$2,767,500, \$2,643,924, and \$2,465,764, respectively.

Postemployment Benefits - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate was 6.81 percent of covered payroll for the period from July 1, 2010 through September 30, 2010, 7.25 percent for the period from October 1, 2010 through October 31, 2010, and 8.50 percent for the period from November 1, 2010 through June 30, 2011. The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2011, 2010, and 2009 were \$1,898,300, \$1,795,127, and \$1,690,201, respectively.

Hartland Consolidated Schools

Notes to Financial Statements June 30, 2011

Note 11 - State Aid Anticipation Note

In August 2010, the School District borrowed \$4,500,000 in a state aid anticipation note. The note bears interest at 1.70 percent and is due in August 2011. At June 30, 2011, the School District has accrued interest of \$66,300 on this note. The note plus the accrued interest were paid subsequent to June 30, 2011.

Note 12 - Subsequent Events

Subsequent to June 30, 2011, the School District borrowed \$4,000,000 at 1.29 percent annual interest on a state aid anticipation note. The note, plus interest, is due August 20, 2012.
